## SUBJECT INDEX

- Abrin  
 covalently linked to AHLG, 195  
 Acetylcholine receptor  
 absence of Ab to in *Mastomys*, 94  
 Agarose  
 cross-reacts with *N. meningitidis*, 20  
 Aggregated human globulin  
 generation of suppressor cells by, 351  
 Allergy  
 and IgE-mediated cytotoxicity, 526  
 Antibodies  
 anti-albumin, in CLD, 381  
 liver-kidney microsomal, and SER, 599  
 to autologous and host-type platelets, 128  
 Antibody-dependent cell-mediated cytotoxicity  
 and NK cells, 534  
 and recovery from RS virus, 28
- Antigen  
 alcoholic hyalin, RIA for, 215  
 Anti-human lymphocyte globulin  
 covalently linked to abrin, 195  
 Arteries  
 renal, C3 in, 254  
 Ascorbic acid  
 affects T lymphocyte mobility, 174  
 effects on neutrophil mobility in CGD, 180  
 Aspergillosis  
 defective neutrophil *Aspergillus* killing in, 201  
 Autoantibodies  
 smooth muscle, and anti-spectrin, 87  
 Autoantibody production  
 and IL-2, 641  
 Autoimmunity  
 delayed by isoprenosine and IFN, 36

- Bactericidal antibody
  - and meningococcal disease, 20
- B cells
  - activated by PTA, 165
  - normal and malignant, stimulated by mitogen, 157
- Blastogenesis
  - in experimental nephrosis, 270
- B lymphocytopenia
  - in IM, 298
- Bone marrow
  - B cells in, 157
- C3
  - in renal arteries, 254
- Cancer
  - lung, and monocyte complement receptors, 540
- Chlorazole fast pink
  - complement inhibitor, 260
- Chondrocyte-stimulating factor
  - released by macrophages, 408
- Chronic granulomatous disease
  - and effect of oral ascorbate on PMN, 180
- Complement
  - inhibited by chlorazole fast pink, 260
  - in rheumatoid disease, 54
- Complement inhibitor
  - with low mol. wt, 549
- Complement receptor
  - monocyte, and lung cancer, 540
- Concanavalin A
  - sensitivity to in CAH, 486
- Continuous culture
  - of T lymphocytes, 329
- C-reactive protein
  - in EAE lesions, 565
- Cyclosporin A
  - inhibition of Ig synthesis by, 342
- Cytotoxic agent
  - an ALC- $\alpha$ brin conjugate, 195
- Cytotoxicity
  - IgE-dependent, in allergy, 526
- Cytotoxic therapy
  - of rheumatoid disease, 54
- Diabetes
  - inherited, immunohistology of, 109
  - Pseudomonas* infection in, 590
- Dipetalonema viteae*
  - interaction with *S. mansoni*, 1
- DNA
  - antigenic structure of, 223
- DNA-anti-DNA complexes
  - in lupus nephritis, 605
- Encephalomyelitis
  - experimental allergic, and C-reactive protein, 565
- Enzyme activity
  - macrophage lysosomal, in liver injury, 376
- Enzyme-linked immunosorbent assay
  - measures Ig in faeces, 645
- Eosinophils
  - neutrophils, and chemotactic peptides, 399
- Faeces
  - Ig levels in, 645
- Glomerulonephritis
  - and platelet-aggregating IC, 64
- Gm
  - interaction with HLA in CAH, 80
- Graft-versus-host disease
  - and immune reactions against islets, 121
- Granulomatous disease
  - phagocytes in carriers of, 390
- Haemopoietic disorders
  - unusual T cells in, 497
- Heavy chain
  - isotypes of, on lymphocytes, 149
- Hepatitis
  - alcoholic, *in vitro* diagnosis by RIA for AHAg, 215
  - chronic active, and sensitivity to Con A, 486
  - anti-spectrin in SMA sera, 87
  - HLA and Gm in, 80
- Hepatitis B
  - HBsAg-CICs in carriers of, 246
- Hepatitis B surface antigen
  - induces hypertrophic SER, 599
- Histamine
  - affects T lymphocyte mobility, 174
- HLA
  - interaction with Gm in CAH, 80
- HLA antigens
  - in scleroderma, 478
- Hyperglycaemia
  - in inherited diabetes, 109
- Hypersensitivity
  - in small intestinal mucosa, 574
- IgA
  - secretory, in pathological sera, 633
- IgD secretion
  - detection of, 463
- IgE
  - and cytotoxicity in allergy, 526
  - synthesized *in vitro*, 458
- IgG subclasses
  - virus AB in, 626
- IgG synthesis
  - in chronic liver disease, 370
- IgM
  - in soluble IC, 231
- Immune complex deposition
  - in inherited diabetes, 109
- Immune complexes
  - circulating, in leukaemia, 46
  - and renal disease, 240
  - in hepatitis B carriers, 246
  - in rheumatoid disease, 54
  - platelet-aggregating, in systemic lupus, 64
  - soluble, clearance of, 231
- Immune complex size
  - in SLE, 615
- Immune function
  - ontogeny of, 450
- Immune reactions
  - cellular, against pancreatic islets, 121
- Immune response
  - following dietary exposure to Pb, 189
  - impaired, in scleroderma, 478

- Immunity
  - cell-mediated, to dietary antigen, 574
- Immunocompetence
  - in long-term vasectomy, 99
- Immunodepression
  - interaction of *S. mansoni* and *D. viteae*, 1
- Immunoglobulin
  - in renal arteries, 254
- Immunoglobulin levels
  - in faeces, 645
- Immunoglobulin-secreting cells
  - ontogeny of, 450
- Immunoglobulin synthesis
  - inhibited by CyA, 342
- Immunological tests
  - significance of, in cancer, 362
- Indium-111 oxine
  - follows lymphocyte traffic, 435, 443
- Influenza vaccination
  - cytotoxic T cells after, 276
- Insulinitis
  - immune, induced with STZ, 425
  - strain-dependency of transfer, 430
- Interferon
  - delays autoimmune disorders, 36
- Interleukin-2
  - and autoantibody production, 641
- Isoprinosis
  - delays autoimmune disorders, 36
- Isotypes
  - multiple Ig on lymphocytes, 149
- Kupffer cells
  - in liver injury, 376
- Lead
  - effects on immune system, 189
- Leucocytes
  - peripheral blood, synthesize IgE, 458
- Leukaemia
  - acute lymphoblastic, pre-B cells in, 143, 336
  - and T cell subsets, 319
  - CIC in, 46
  - T chronic lymphocytic, and TCGF, 302
- Leukaemia cells
  - PNA binding by, 311
- Liver disease
  - anti-albumin Ab in, 381
  - chronic, IgG synthesis in, 370
- Liver injury
  - macrophage lysosomal enzyme activity in, 376
- Lung cancer
  - lymphocyte gradients in, 362
- Lupus nephritis
  - and CICs, 240
- Lymphocytes
  - gradient-derived, assessed in cancer, 362
- Lymphocyte traffic
  - followed using indium-111 oxine, 435, 443
- Lymphocyte transformation
  - suppressed in sarcoidosis, 491
- Lymphocytotoxins
  - in IM, 285
- Macrophages
  - monocytes reflect their activity, 376
  - peritoneal and release of ChSF, 408
- Mediterranean fever
  - familial, suppressor cells in, 357
- Mitogens
  - and leucocyte response in *T. congolense* infection, 583
- Monocytes
  - in CGD, 390
  - produce NAG, and macrophage activity, 376
- Mononuclear cells
  - cerebriform, characterization of, 506
  - in allergy, 526
- Mononucleosis
  - infectious, B lymphocytopenia in, 298
  - lymphocytotoxins in, 285
  - T cells in, 291
- Mucosa
  - small intestinal, hypersensitivity in, 574
- Multiple sclerosis
  - effect of TF on, 557
- Myasthenia gravis
  - anti-poly A antibodies in, 73
- Mycobacterium avium*
  - and suppressor T cells, 10
- N*-acetyl-glucosaminidase
  - produced by monocytes and macrophages, 376
- Natural killer cells
  - and ADCC, 534
- Neisseria meningitidis* LPS
  - cross-reacts with agarose, 20
- Nephrosis
  - blastogenesis in, 270
- Neutrophil activation
  - inhibited by PAF? 135
- Neutrophil iodination
  - and yeast opsonization, 208
- Neutrophil killing
  - defective in aspergillosis, 201
- Neutrophils
  - eosinophils and chemotactic peptides, 399
  - in CGD, 390
- Nucleic acids
  - Ab to, induced with STZ, 425
- Pancreatic islets
  - cellular immune reactions against, 121
- Peanut agglutinin
  - bound by lymphoid cells, 311
- Peptide
  - chemotactic, eosinophils and neutrophils, 399
- Plaque assay
  - protein A, detects IgD secretion, 463
- Platelet-activating factor
  - an inhibitor of neutrophil activation? 135
- Platelets
  - Ab to, 128
- Polyadenylic acid
  - Ab to in MG, 73
- Polyclonal T cell activator
  - stimulates B cells, 165
- Praomys (Mastomys) natalensis*
  - anti-AChR Ab in, 94

- Pre-B cells  
  effect of T cells on proliferation, 336  
  in childhood ALL, 143
- Precursor cells  
  post-thymic, in health and disease, 473
- Proteases  
  chondrocytic, induced by macrophages, 408
- Protein  
  C-reactive, in EAE lesions, 565
- Proteinuria  
  in experimental nephrosis, 270
- Pseudomonas aeruginosa*  
  infection with, in diabetes, 590
- Radioimmunoassay  
  for A $\alpha$  to *S. mutans*, 417  
  quantitative, reassesses IgA levels, 633
- Renal disease  
  association with CICs, 240
- Respiratory syncytial virus  
  and ADCC system, 28
- Rheumatoid arthritis  
  T cell circuits in, 473
- Rheumatoid disease  
  IgG-RF and IC in, 54
- Rheumatoid factor  
  and IC in rheumatoid disease, 54
- Sarcoidosis  
  'Ty' cells in, 491
- Schistosoma mansoni*  
  interaction with *D. viteae*, 1
- Scleroderma  
  frequency of B8/DR3, 478
- Serotonin  
  intraplatelet, correlated with PAT results, 64
- Smooth endoplasmic reticulum  
  hypertrophic, and LKM, 599
- Spectrin  
  Ab to in SMA-containing sera, 87
- Streptococcus mutans*  
  RIA for Ab to, 417
- Streptozotocin  
  induces diabetes, 590  
  induces immune insulinitis, 425, 430
- Suppressor cell defect  
  in CAH, 486
- Suppressor cells  
  antigen-specific, induction of, 517  
  function in FMF, 357  
  generation of by AHG, 351  
  induced by *M. avium*, 10
- Systemic lupus  
  and platelet-aggregating IC, 64
- Systemic lupus erythematosus  
  DNA-anti-DNA complexes in, 605  
  IC in, 615
- Systemic lupus erythematosus sera  
  interaction with DNA, 223
- T cell circuits  
  immunoregulatory, in RA, 473
- T cell growth factor  
  restores T-CLL cell proliferation, 302
- T cells  
  after influenza vaccination, 276  
  effect on pre-B cells, 336  
  in haemopoietic disorders, 497  
  in IM, 291  
  morphological aspects of, 506
- T cell subsets  
  characterization of, 319
- 'Ty' cells  
  in sarcoidosis, 491
- T lymphocyte mobility  
  effects of histamine and ascorbic acid on, 174
- T lymphocytes  
  continuously cultured, properties of, 329
- Transfer factor  
  in MS, 557
- Transplantation  
  and pharmacokinetics of CyA, 342
- Trypanosoma congolense*  
  leucocytes during infection with, 583
- Vasectomy  
  long-term effects of, 99
- Virus antibody  
  in IgG subclasses, 626
- Yeast opsonization  
  PMN iodination response as estimate of, 208
